

# BCD Audio Interbox-2F - SPDIF Input/Output (1862\_22J)+

**£75.00**

BCD Audio Interbox-2F - SPDIF Input/Output - USED (1862) The S/PDIF input is converted to AES level, channel status information is automatically converted to professional format and passed to the AES output. The AES input is passed to both the S/PDIF and Toslink outputs. The channel status information is converted automatically to 'consumer, copy enable', suitable for consumer CD-R and computer interfaces. While the 'SRC' switch is selected, The AES output is clocked by the AES input, and the necessary sample-rate conversion from consumer input to AES output is performed. The S/PDIF output is clocked from the S/PDIF input. As a result the

otherwise stated) Please see our other items for other vintage and Rare broadcast equipment, including more Technics, Rogers and much more! Shipping costs. Prices quoted for shipping by courier are based on delivery to England & Wales only. Highlands, Ireland, and Islands may cost more so please enquire prior to bidding. Yes, we know Northern Ireland is classed as part of the U.K. but it still costs more to send large items there. There is no extra cost for smaller items sent by Royal Mail. We will recycle packaging where we can to keep your costs and ours down. We will combine P&P where we can. If you are buying multiple items, please do the 'buy it now' part
