

Tektronix TSG-300 Component Television Generator - used (00034 - R)

£79.99

Professional Broadcasting Equipment Tektronix TSG-300 Component Television Generator - used (00034 - R) The Tektronix TSG300 is a precision, multiformat Analog Component Test Signal Generator. The comprehensive test signal complement includes commonly used test signals as well as special signals designed specifically for analog component equipment and systems. Operation in 525/60 and 625/50 is a standard feature. Precision digital signal generation ensures the accuracy and stability of the TSG300 test signals. 10 bit digital-to-analog conversion at 13.5 MS/s, even in the color difference channels, allows full bandwidth testing of GBR

vintage and Rare broadcast equipment, including more Technics, Rogers and much more! Ref 00034 Shipping costs. Prices quoted for shipping by courier are based on delivery to England & Wales only. Highlands, Ireland, and Islands may cost more so please enquire prior to bidding.

Yes, we know Northern Ireland is classed as part of the U.K. but it still costs more to send large items there. There is no extra cost for smaller items sent by Royal Mail. We will recycle packaging where we can to keep your costs and ours down. We will combine P&P where we can. If you are buying multiple items, please do the 'buy it now' part but do not proceed to payment. We will
